Dear Cindy's Friend,

We just wanted to take a moment and update you on Sweet Cindy, the Fighter. Many of you will remember what bad shape she was in when we sent around a plea for funds to help her.

Well, we got her to Colorado, our Colorado rescue partner and her veterinarians immediately went to work, and we are beyond thrilled to say that she is doing splendidly. A couple of pictures are below. Our Colorado friend asked us to forgive her for the blurry pictures, but she could not get Cindy to sit still long enough to get a decent shot. We think that it is fabulous that this crazy kid is so healthy now that clear pictures are an impossibility.

Her skin is completely healed, and she romps and plays all day--she finally gets to be a puppy!

Thank you to each of you who donated for her care and offered her words of support and encouragement. It is that kind of energy that helps RPM save animals like Cindy, and we are excited to continue to be able to do that with your help.

Your Friends,

What can it do for *your* nonprofit? Drive action.

"The response was amazing; we raised over \$10,000 from individual donors and were able to get (a dog with a life-threatening medical condition) the help she needed."

Q: What is the #1 app on cell phones?

A: Email

More than half of all emails are opened on a mobile device

More people own a cell phone than own a toothbrush!

Source: Litmus

People read it

88% regularly check email on their smartphones (more than social media or videos) 91% of people check their email daily

Email is reliable

Email gets delivered 90+% of the time; (Facebook posts reach just 2% of fans)

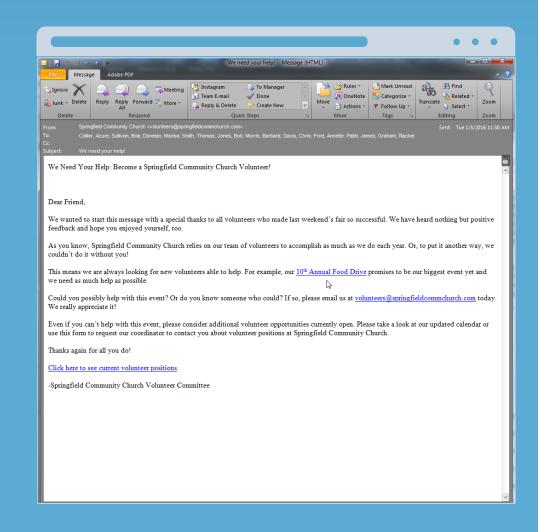

Email works

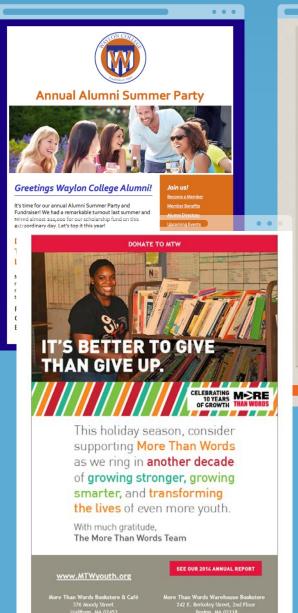

Email marketing has 3x the conversion rate as social media For every \$1 spent on email marketing, there is a \$44.25 average ROI

Why regular email *doesn't* work

- Limited # of emails sent at once
- No formatting control
- List break up more susceptible to filters
- No cohesive branding
- Potential SPAM complaints
- No tracking and reporting of email results

Email Marketing automates best practices for you and makes you look great!

- Provides beautiful, mobile-responsive, easy-to-use templates
- Reinforces brand identity
- Emails addressed to recipient only
- Manages lists adding new subscribers, handling bounce-backs, removing unsubscribes
- Ensures email delivery, tracks results and obeys the law

Growing your list is all about *how* and *where* you ask.

And yes, you have to.

How to Ask: The importance of permission

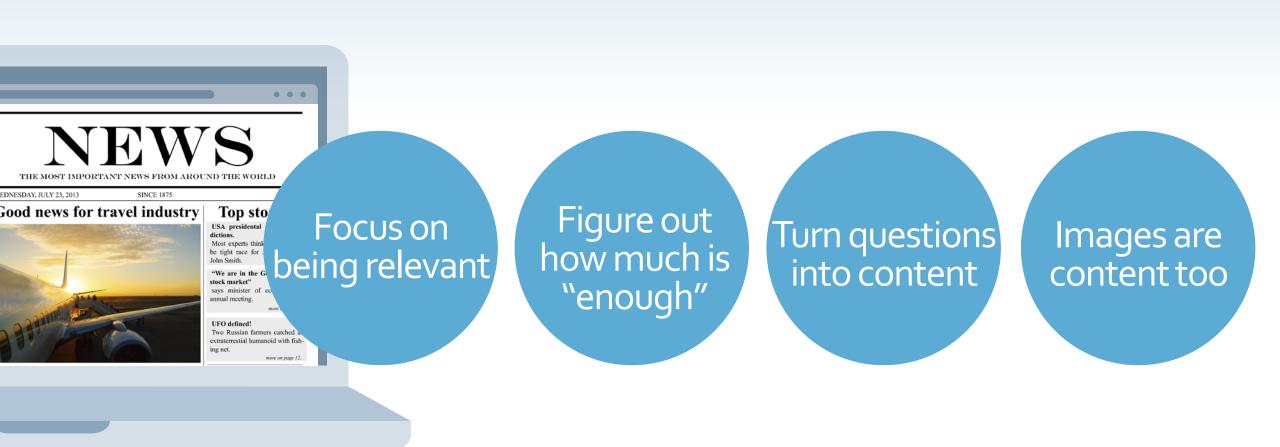

Get express consent	Ask for permission to send them email				
Be straightforward	Let them know what content to expect & follow through				
Offer opt-out	Include the option to unsubscribe in every email				
Respect privacy	Post your privacy policy – it adds credibility				
Don't overwhelm	Respect the privilege of communicating & plan strategically				
Follow Compliance Guidelines (CAN-SPAM, CASL etc.)	 Clear & obvious permission on your sign up form Clearly identify the person, business or organization Include a valid mailing address & phone number, email or web address Inform them that they can unsubscribe any time Have a process to record express consent 				

Where to Ask: Everywhere!

	Collect email addresses at events	At speaking engagements	
	Add a QR code to table tents	On paperwork or paper distribution materials	
PROMOTION R CODE 15% OFF IIIIIIIIIIIIIIIIIIIIIIIIIIIIIIIII	Print QR code on a flyer	Use a 'fishbowl' to collect business cards	
	Use a signup sheet in gathering areas	But really	, just ask.

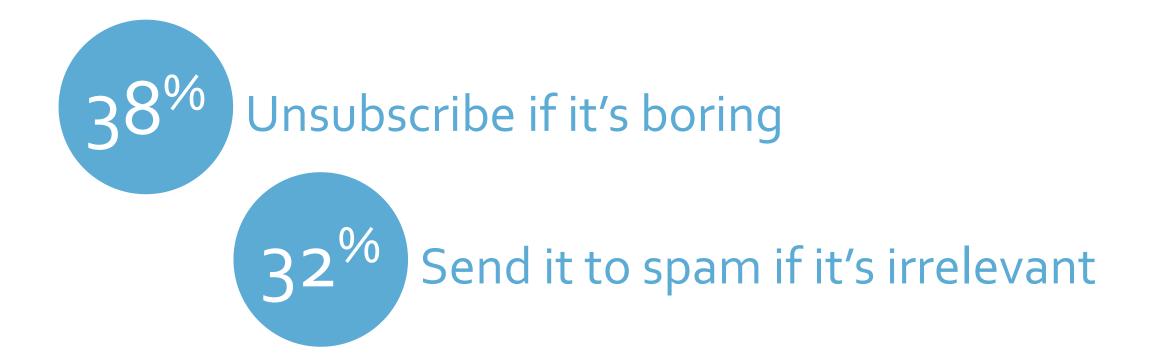

Agenda

1. Why email marketing? 2. Harnessing the power of the inbox a. Grow a healthy list b. Creating great content c. Create a beautiful, mobile-friendly template that matches your brand d. Get your email opened e. Tracking your results 3. Putting it all together

It's not always about you. It's about what you know, or what you have access to.

Write for your audience, not for you.

Less is more.

Between successful mountain gorilla orphan exams, the hiring of a new field veterinarian in Uganda, donations of crucial equipment and supplies for our laboratories, and training workshops in surgical techniques for our field vets, 2015 is off to a great start for the Gorilla Doctors! The excitement of the New Year is tempered, however, as we say farewell to Regional Manager Dr. Jan Ramer, who returned to the US this month after a year in Africa managing field operations in each country.
